

Course name: Terminology 'A' in English

Course code: YARASNABNF

Hours per week: 0 lecture / 0 practice / 3 laboratory; F: Final Mark / 5 credits

Department of the Built Environment

In charge: Márta Anna Salamon

For students of BSc in Architecture and Civil Engineering

Pre-requirements for Erasmus students: B1 level in English

OBJECTIVE OF THE COURSE:

The English Terminology A course is a practical course for learners in the technical, industrial, and scientific sectors who will need English for everyday communication at work.

The course gives the learners the language they need for real-life, hands-on tasks like describing a problem, giving instructions, discussing logistics, or explaining procedures. From maintenance to customer service and manufacturing to technical support, the focus is always on getting the job done.

The course offers practical speaking activities based on real workplace scenarios, key vocabulary for use in a wide range of situations, and a straightforward, need-to-know approach to grammar.

The level of the course is Pre-intermediate, the equivalent of B1 of
