**Course name: Terminology 'A' in English**
Course code: YARASNABNF
Hours per week:0 lecture / 0 practice / 3 laboratory; Final mark/ 6 credit
Precondition for Erasmus students: B1 level of English
In charge: Salamon Márta Anna, lecturer: Salamon Márta Anna

OBJECTIVE OF THE COURSE:

The aim of the course is to develop students' technical English language competence in order to find their place in an internationalized world during their work. Vocabulary development tasks embedded in technical language topics, reading, listening comprehension, and speaking skills are all emphasized during the course. The main topics are supplemented with grammar exercises, sometimes highlighting the use of certain linguistic phenomena, such as certain fixed phrases, the role of different tenses, or even the passive structure.
